Supervision Tools

This webinar addresses strategies to become familiar with developing skills necessary to be a clinical supervisor. Practical suggestions for different types of supervision and strategies will be presented. Cultural responsiveness to both students and patients is emphasized.

Learning Outcomes for “Want to be a supervisor? Everything you need to know...”

1. Identify strategies to help you become a successful clinical educator/supervisor.
2. Discuss tools that will enhance student clinical success.
3. Identify strategies to develop a reflective student.

Ethics

This course will present ethical dilemmas a therapist may encounter, including confidentiality concerns, billing, patient abandonment, conflict of interests, and employment concerns along with the best interest of the patient standard. Court cases will be examined and discussed how ethical issues could be avoided. The course will define, examine, and provide solutions for ethical concerns.

1. Identify potential ethical concerns.
2. Describe the purpose of ASHA’s code of ethics in decision making.
3. Apply strategies for determining possible ethical dilemmas and determine an appropriate, legal solution.
