

Registration

Lessac Kinesensics

January 6 - 8, 2023

About the faculty

Nancy Krebs, Lessac Master Teacher

Education: B.A. in Theatre, University of Maryland, Baltimore County
Graduate Training: Dallas Theater Center (Trinity University)
Certification in the Lessac Voice & Body Training, 1993 (Master's Equivalent in Voice Training, Lessac Institute)
Master Teacher Certificate: Lessac Voice & Body Training, 2002
Member of AEA, SAG, AFTRA, VASTA, BMI

Nancy graduated in 1972 with a B.A. in Theatre from the University of Maryland, Baltimore County; and went on to graduate school at the Dallas Theater Center under the leadership of Paul Baker. She has been a professional actor/singer since 1975. Her acting credits include: TV series--*Once Upon a Town* (Emmy award), *The Bloomin' Place*, *One Life to Live*; over 150 professional productions in regional theatres such as Alaska Repertory Theatre, Center Stage, Meadowbrook Theatre, The Classic Theatre of Maryland, summer stock as well as dinner theatres and Inter-Generational theatres in the Baltimore/Washington area; numerous voice over commercials and narrations as well. As an author, Ms. Krebs has contributed to the texts: *Voice and Speech Training in the New Millennium: Conversations with Master Teachers* by Nancy Saklad, *Collective Writings on the Lessac Voice and Body Work: A Festschrift* by Marth Munro, Sean Turner, Allan Munro and Kathleen Campbell and *Play with Purpose: Lessac Kinesensics in Action* edited by Marth Munro, Sean Turner Allan Munro. She is currently co-authoring a new book using the Kinesensic strategies to teach non-English Speakers how to become more fluent and expressive in North American English speech. She is also a singer/songwriter/musician and recording artist, having released seven albums of critically acclaimed original Christian meditational music: *The Journey*, *Love makes Room*, *Come to the Stable*, *Simple Gifts*, *Songs from the Heart and Moved by God* which receive air-play around the world.

She has been a Certified Lessac Master Teacher since 2002 and has served in many capacities for the Lessac Training & Research Institute since that year—as President, Board member, and Master Teacher Council representative. She received the Lessac Leadership Award in 2011 and continues to be a part of the Master Teacher Team. She has been the Director and Co-Director of Lessac Intensives both in the U.S. and abroad, served on the faculty of the Four Week Workshop, teaching with Arthur Lessac and Senior Master Teacher Sue Ann Park from 1995-2005; and has led and developed numerous shorter Kinesensic-based workshops throughout the years since 1995. She has worked as a vocal/dialect coach for over 200+ professional productions in the Baltimore-Washington region since 1994. She taught a full four-year Lessac-based voice curriculum in the Theatre Department of the Baltimore School for the Arts from 1981-2019, and currently operates her own voice studio—The Voiceworks Studio in Severn, Maryland.

Kittie Verdolini Abbott, PhD., CCC-SLP, M.Div., is Professor of Communication Sciences and Disorders at the University of Delaware. Prior academic appointments include the University of Iowa, Harvard Medical School, and the University of Pittsburgh. She received training in the Lessac approach to body, voice, and speech, working personally with the approach's founder, Arthur Lessac. She developed *Lessac-Madsen Resonant Voice Therapy (LMRVT)*, which is widely recognized as an important tool in voice therapy for a range of conditions affecting voice, and for which she has received funding for basic and applied science from the National Institutes of Health since 1997. Dr. Verdolini Abbott is a Fellow of the American Speech-Language-Hearing Association, from which she also received the highest Honors in 2009. She is, herself, a singer and actor, committed to the translation of both basic science and performing arts traditions to the practice of speech-language pathology.

Lessac Kinesensics

A Workshop for
Speech-Language Pathologists

January 6 - 8, 2023

Nancy Krebs, Lessac Master Teacher

Kittie Verdolini Abbott, PhD., CCC-SLP, M.Div

We have a new schedule and format:

January 6 – 7, 2023 2 Day Basic Intro

January 8, 2023 1 Day Advanced

The 1 Day Advanced course may be taken separately if you have already completed the 2 Day Intro course in the past

Course Fees and Location

Lessac Kinesensics:

Course Fee Is:

\$350.00 Full 3 Day Intro + Advanced

\$299.00 2 Day Intro

\$150.00 1 Day Advanced

Course Location:

Online Webinar, Only

How to Register

All registrations are through the web page:

<https://visionsinvoice.com/register/lessac-kinesensics/>

Day 1 & 2 Intro are offered for 1.3 ASHA CEUs
(Intermediate level, Professional area)

Day 3 Advanced is offered for 0.6 ASHA CEUs
(Intermediate level, Professional area)

Visions in Voice

Up to 1.9 ASHA CEUs

About the Course

About the course:

This course provides basic training in Lessac Kinesensics for application to speech-language pathology. The course is designed for SLP clinicians and clinicians in training, and is an abbreviated version of longer, more intensive courses offered for those seeking recognition as Lessac teachers for expanded applications. The course will provide exposure to Lessac body, voice, and speech training with special attention to use for individuals with voice and possibly fluency disorders. Data will be provided on the acoustics and aerodynamics of Lessac body, voice, and speech “energies,” as well as on outcomes from clinical trials in LMRVT for individuals with phonogenic voice disorders.

Disclosures: Financial disclosures: Ms. Krebs receives compensation for her voice and speech work through public and private venues teaching the Lessac work. Dr. Verdolini Abbott receives royalties for her LMRVT products, including clinician and patient manuals, through Plural Publishing. She also receives royalties for a text she co-authored with Dr. Ingo Titze, *Vocology*, published through the National Center for Voice and Speech. None of these products will be sold for the purposes of the present course. **Non-financial disclosures:** Dr. Verdolini Abbott serves as reviewer for peer-reviewed submissions to several professional journals and for the National Institutes of Health. Ms. Krebs has no existing relevant non-financial relationship.

Learning outcomes:

At the conclusion of the course, participants will be able to:

- Demonstrate three Lessac body energies --“NRGs” and three voice/speech energies-- “NRGs.”
- Describe application of these “NRGs” to individuals with voice disorders of a variety of origins, in particular phonogenic origins, including findings from clinical trials.
- Describe acoustic and aerodynamic data associated with three body “NRGs” and three voice/speech “NRGs.”

Cancellation Policy

There are no cancellations for this course. No fees will be returned. We are not responsible for any adverse events relating to travel to the course. We reserve the right to cancel the course 7 days prior to the course date with full refund of course fee if registrations are insufficient to support the course. If we cancel or reschedule, we are not responsible for any travel expenses or penalty fees incurred by the registrant.

Confirmation

Confirmation of registration will be sent by e-mail approximately 14 days in advance of course start date, along with links to download course handouts and knowledge assessment. Receipts will be sent by e-mail and will show contact hours earned and amount paid.

Schedule

DAY 1 (Participants experiences Lessac Kinesensic Training)

All times are Eastern Daylight Time

Morning Session:

9:00-9:30 Introduction to the overall experience and relevance to SLP community. Kittie – breaks, as needed, CEUs, Hear participants share their goals and pronouns, etc. Participants announce names, pronouns, their hopes/goals for the course, their needs, if any.
9:30-10:15 Introduction to the Lessac principles, inner vs. outer environment, Our first familiar event and organic instruction – breathing to upright orientation, Body Pain Relievers/Relaxer-Energizers
10:15-10:30 Break
10:30-12:00 3 Relaxer/Energizers into the 3 Body Energies (NRGs*), Buoyancy-Potency-Radiancy-Inter-Involvement With their ‘dialects’, *NRG--Neural Regenerative Growth and acronym for ‘Energy’

12:00-12:30 Lunch Break

Afternoon Session:

12:30-1:00 Introduction to the Principles of Lessac Voice Training (w/relevance to SLP), Resonance, wave reflection—hearing what you feel, rather than feeling what you hear. (Tuning fork, hearing vs. ‘feeling’, kinesensic learning, Familiar events, organic instruction for voice, 3 Vocal NRGs)
1:00-2:15 Consonant NRG Introduction from the familiar event of humming into the Strings N, M, V, Z, S, F and the tappable instruments of the B, P, D, T, G, K with – Tasting-Music Making and Communicating
2:15-2:30 Break
2:30-2:40 Vocal Tune-up with Rounds using the strings./ shakeout re-energizing
2:40-3:00 Continuation of Consonant NRG adding Body NRG ‘support’
3:00-3:30 Introduction to Tonal NRG bridging from the Y French Horn (Y Buzz) Benefits of Tonal NRG
3:30-3:45 Break
3:45-4:15 Tonal NRG (+Y and the Call) (head orientation throughout)
4:15-4:45 Structural NRG introduction (Woo-Woe-War-Wah-Wow) the creation of the flexible ‘sound box’ and the ‘yawn’ dynamic
4:45-5:00 Q & A --assignment explanation

Assignment: Review what we’ve done today, use the poems to expand your sense of ‘kinesensic’ (the ‘feeling process’) understanding of Consonant NRG. Also include exploring them with a body NRG present--then change the body energy and explore the poem again--see what differences you might feel taking place.

- Prepare one single line for tomorrow—memorize it End of booklet for one line explorations page 52-53
- Prepare a song for tomorrow, or a piece of a presentation —just one 16 bar section is enough or a few paragraphs—this does not need to be memorized

Schedule Continued

DAY 2 (Lessac Kinesensic work, con’t)

9:00-11:00 The basic science. This training, as Dr. Kittie Verdolini Abbott has researched and developed, has been the subject of several small and large-scale studies funded by the National Institutes of Health. Results indicate that Lessac-Madsen Resonant Voice Therapy and its off-shoots are effective for many adults and possibly children with voice disorders from multiple etiologies including phonotrauma—so the more we do this training with our clients/patients, the more efficacious it appears to be
11:00-11:15 Break
11:15-11:45 Scat Bands and Vocal Tune-up (refresh posture and breathing) Purpose of the ‘tune up’?
11:45-12:00 Continuation of Structural NRG into the creation of 11 non distorted, non-regional vowels/diphthongs—feeling the *yawn* space
Extravagant—full use of the yawn, slow in tempo
Heightened—full use of the yawn, quicker in tempo
Social—reduction of the yawn space, same tempo as Heightened
Conversational—same reduction in yawn space, quicker tempo
Intimate—moving with dispatch, with a feel of yawn space within
12:00-12:30 Lunch break

Afternoon Session:

12:30-4:20 Real Life Applications & Clinical Journeys with Lessac Kinesensics: Kittie Verdolini and Nancy Krebs

LMRVT addendum

4:20-4:30 Course evaluation

4:30-5:00 Final questions, improv, adjourn
